To whom it may concern,

We are requesting the waiver of the Environmental Impact for our site at Portion 89q9 90 Bumboras Rd.

We believe the below reasons support our request:

1. The excavated soil is to remain on site and will be used to back fill the new retaining wall, form concrete garage pad and shaping to improve stormwater run-off.
2. There will be no impact to neighbouring properties.
3. The earthworks will be undertaken under any council requirements.
4. All excavated materials will be required to complete the build, avoiding any soil needed from off site.

Excavations are necessary to complete the lower-level story and to keep the house at a minimum height to prevent the neighbouring property's view from being blocked.

We are more than happy to comply to whatever restrictions/conditions you feel are necessary.

Many thanks and we look forward to working together.

 
Sincerely,

Mark and Amanda Paton.
