

MEDIA RELEASE

ADSL Data Roll Over

Norfolk Telecom (NT) is pleased to introduce a new ADSL service benefit to all our NT internet customers.

From 1 April 2021, NT customers will have automatic access to the ADSL data rollover service. This means that if you have an ADSL plan with us from 1 March 2021, any unused data at the end of the month is automatically rolled over to the following month.

For example, if you are on a 90GB plan and you use only 60GB during the month, the remaining 30GB will be rolled over into the following months' data plan; this gives you 120GB to use the following month without incurring any additional usage charges.

For more information on available ADSL plans, visit our website at www.norfolktelecom.gov.nf or contact Customer Care on free call 0100 or email customercare@nirc.gov.nf
