

## Ongoing Roadworks – Taylors Road

Norfolk Island Regional Council would like to thank all members of the community for their understanding and diligence in adhering to the Road Signs and directions given by NIRC Staff and road workers to keep our community safe.

In the following are a few pictures of why this work was so important and needed to be carried out as a matter of urgency.

Before removal, these rocks were jutting out from above on the roadside bank, posing a danger to all thoroughfare and motorists on this critical section of Taylor's Road.

As inclement weather is forecasted for the next few days, the road will continue to be closed and the roadworks continue into early next week.

The community's understanding and continuing adherence to directions, road signs and NIRC staff will be greatly appreciated.

The community will be kept informed via Radio Norfolk

and NIRC's social media platforms. Council apologises for any inconvenience caused.

Allan McConnell
