Program Details:

This is the story of Carolyn Linton – a beautiful, spoilt and possessive woman. She could attract men and destroy them at will.

Carolyn and her cousin Rosemary had grown up as sisters but Carolyn despised Rosemary and, when Rosemary met and fell in love with John Radcliffe, headmaster of a fashionable school, Carolyn delighted in stealing him to become her own husband.

However, Carolyn discovered that life lived in the confines of a school could be boring and she sought amusement outside her marriage.

When Carolyn finally discovered that her mother's estate was larger than expected she decided to escape her husband and the school, but by that time she was desperately afraid that someone was trying to kill her.
