* 6 locally extinct & 2 globally extinct.

MAPPING OUR ISLAND: PAST & PRESENT

Royal A&H Show Day | Monday 11 October

Think you know Norfolk Island? Well, think again. For the first time ever the forests, woodlands and grasslands across the entire island have been mapped, as they exist now and before 1750. These maps will be on display for the first time ever at this year's A&H Show.

So come and say hello, and take a look at these incredible new maps and pick up some free fact sheets!
