

Fallen Tree Cleared at 100 Acres on Christmas Eve

On Friday 24th December 2021 the Works Depot received an urgent request to clean up a large limb that had come down blocking vehicle and pedestrian access to 100 Acres, as well as a portion of New Farm Road.

Given that several Work Depot Staff had already commenced Annual Leave, those Staff members who remained on island rallied around and organised chainsaws, blowers, ropes, and the Council Roads Department loader and diligently went about clearing the fallen limb in quick time.

Eddie, Alan, Matty, Nev and Mal are to be commended for achieving a good outcome in a short amount of time, keeping any inconvenience to the public to a minimum.

This is a good reminder that if the public notices any access or egress issues across the island reserves and road network, please contact the works depot.
