

ELECTRICITY SMART METER COMMUNITY INFORMATION EVENING

Norfolk Island Electricity and Telecom have successfully worked together to test a range of Smart Meters, supplied by Besy, in preparation for the implementation phase of the new electricity upgrades.

The upgrades include the installation of smart meters on every dwelling and commercial premises on island, and a new billing system with customer service by Besy.

The team from Besy will be on island next week to meet with community members and businesses. **A community information session will be held at Rawson Hall on Thursday 9 June at 6pm.**

We hope to see everyone there – let us know you're coming by emailing customer@nirc.gov.nf or phone 0100, send us a Facebook message, or click 'going' on our Facebook event, so we can arrange catering.

Let's talk about Electricity

MORE RENEWABLES. LOWER TARIFFS.
